Innovation and Entrepreneurship Centre

Centre for Promoting STEAM Education

Robotmea is the only one!

Robotmea is the only organization with capability to design unique tailor-made STEAM curriculums seamlessly integrated with emerging technologies to prepare students for Industry 4.0

STEAM Education & Robotmea Approach

Intentional connection between

Lesson Design & Implementation

Standards

Assessments

Applying STEAM Education:

1. Experiential Learning (ExL)

2. Project Based Inquiry Learning

Robotmea Approach:

ROBOTMEA ADDITION MODEL:

Robotmea with the help of its perspective international partners has developed a complete framework of AI, Robotics & STEAM education. It is an addition of a subject in the existing curriculum of the school from pre-primary till grade 12.

Focused Skillset

Scope of Work

ESTABLISHMENT OF AI,
ROBOTICS & STEAM
LAB

TEACHER'S TRAINING

ACADEMIC &
CURRICULUM SUPORT

- LESSON
PLANNING
- SCHEME OF WORK
- TEACHER'S GUIDE
- RUBRICS
- LEARNING LOGS

STUDENT MANUALS

80 MINUTES PER WEEK

ROBOTMEA INTEGRATION MODEL:

The research & curriculum wing of Robotmea with the joint research centres of its south Korean partners have developed an integration model. This model keeps technology as a central part of the curriculum and subjects spins around it to convert the existing theoretical subjects on problem based inquiry learning methods.
