CAPABILITY OVERVIEW

Who We Are

Robotmea is an International EdTech authority with 04 R&D Arms, 01 Institute, Emerging Technologies Centre, ETM Schools Network and Fleet Network of Discovery and Innovation hubs for Emerging Technologies (AI, Robotics, AR/VR, Simulation) and STEAM Education — accredited by Robotron, South Korea, in the Middle East, Africa and Pakistan region.

4 R&D Centers
3 in South Korea ·

STEAM

Emerging Tech

Empowering institutions to cultivate innovation, critical thinking, creativity and workforce readiness for the digital era.

TITANS OF EDTECH

Our Global Partners

**Robotron**

25 yrs

Korean government–selected for next-gen robotics R&D; national STEAM reference platform across public schools.

**Neopia**

27 yrs

Selected for the Ministry of Knowledge Economy's Next-Generation Digital Leader Development Program.

**Minirobot**

26 yrs

Designer of educational humanoids and provider of competition-grade robotics platforms.

**Sinion**

China

Supplies cutting-edge technologies tailored to Pakistan's emerging needs.

**Shandong CoC**

Shanghai

Strategic China gateway via the Shandong Chamber of Commerce in Shanghai.

ASPIRE TO INSPIRE

Our Vision & Values

An international EdTech R&D organization transforming education across the Middle East, Africa and Pakistan through technology, innovation and entrepreneurship — with a focus on AI, Robotics, IoT and emerging technologies.

VISION

Transforming the Future of Youth

STRATEGIC OBJECTIVE

Innovative education for shaping wisdom-driven economies

ROOTED IN ISLAMIC VALUES

Faith on Almighty Allah

Self Discipline

Tenacity

Perseverance

Passion to Lead

Optimism

Leadership

Agility & Flexibility

Challenge yourself

To chose your dreams

PROVEN TRACK RECORD

We Know Global EdTech

Alhamdulillah — a decade of impact, backed by world-class partners.

200,000+

Students associated

5,000+

Teachers trained

200+

Projects executed

30+

Years partner experience

HOW WE OPERATE

The Robotmea Ecosystem

Two engines working in tandem — one builds the research and programs, the other amplifies their reach and impact.

IERDG

Institute for EdTech Research, Development & Growth

A Global international EdTech research platform — launched with partner Robotron (South Korea) to popularise EdTech and a culture of technology-enabled learning.

COPR Nexus

Communication, Outreach & Public Relations

A central platform promoting innovation, building strategic partnerships, enhancing brand visibility and amplifying the impact of education transformation.

INSIDE THE ECOSYSTEM

Institute for EdTech R&D & Growth

IERDG

VISION

WHERE EXCELLENCE MATTERS

MISSION STATEMENT

Transforming the Future of Youth through emerging technologies, human centered learning and measurable impact.

STRATEGIC OBJECTIVE

Evidence-based EdTech innovation for shaping future-ready, technology-enabled learning ecosystems.

K-12 Program

Educational Transformational Movement

Faculty Development Cell

Robotmea Emerging Technologies Centre

International Diploma Program (IDP)

• R&D Partners working since 1999

• ISO 9001 Certified

• 11 + Patents

• 20 years + in Korean Textbook

• R&D with S. Korea Government

FLAGSHIP PROGRAM 1

K-12 Program

A complete transformation initiative preparing schools for the future of learning — a 360° turnkey solution that brings AI, Robotics, IoT, AR/VR, Astronomy, STEAM and Entrepreneurship into existing curricula, delivered through two flexible pathways.

**PATHWAY 1**
Addition Model

Adds AI, Robotics & Coding within a STEAM framework — without changing the school's current academic structure.

- Dedicated AI, Robotics & STEAM Lab
- Complete AI, Robotics & STEAM curriculum
- Teacher training + monitoring & evaluation
- Implementable across all grades, K–12

**PATHWAY 2**
Integration Model

Integrates emerging tech directly into the existing Science & Mathematics curriculum for deeper, accelerated learning.

- AI, Robotics, IoT & AR/VR anchors around Science & Math
- Innovation Boxes for advanced AI, IoT & programming
- Tailored integrated curriculum + academic planning
- Built-in assessment + Robotmea PMT portal access

**INCLUDED
THROUGHOUT**

Discovery & Innovation Hubs · Internationally aligned curriculum · Faculty development · Monitoring & evaluation · Ongoing support · Builds creativity, critical thinking, problem-solving & leadership

RESEARCH & KNOWLEDGE

Thought Leadership

Through IERDG, Robotmea publishes white papers that shape EdTech adoption, integration and policy across the region — evidence-based guidance from a decade of global practice.

FLAGSHIP PROGRAM 2

Educational Transformational Movement

ETM

Pakistan's first South Korean–accredited school transformation framework — a 360° turnkey model, transactional to transformational.

Islamic Values & Arabic

Friends of Quran · Role Model (SAWW)
